Hello Rene,

We have completed the setup process for your new Dreamweaver MX Developer hosting package. You will need the following information to access your site, email, and statistics reporting. Also, you will need to use the temporary links until your domain name registration is complete.

You will be able to access your site at: http://e-heart.org and http://www.e-heart.org

TEMPORARY URL

Until your domain name registration is completed, please use the temporary URL information provided in each section. The Temporary URL's will allow you to access your account features immediately.

http://e-heart.protectedsite.net

ENTERHOST CONTROL PANEL

The Enterhost Control Panel is valuable resource that we offer our clients as a way to simplify managing your website. You have access to this powerful and convenient application that you can access with your browser, any time, and the changes you make happen immediately.

URL:	http://controlpanel.e-heart.org
TEMP URL:	http://web2k20.enterhost.com
USER ID:	e-heart
PASSWORD:	njmhTT647y

EMAIL

We have set up administrative email accounts that will allow you to log into the web based interface and administer your email accounts.

URL:	http://mail.e-heart.org
TEMP URL:	http://mail.protectedsite.net
USER ID:	admin@e-heart.org
PASSWORD:	njmhTT647y

When setting up mail through your mail client (Outlook Express, etc..), use the following settings:

USER:	admin@e-heart.org
PASSWORD:	same as above (or any password you set up)

INCOMING MAIL SERVER: mail.e-heart.org
OUTGOING MAIL SERVER: mail.e-heart.org or the mail server of your ISP

(ex. mail.msn.com, smtp.earthlink.net)
*In most cases, your ISP will require you to use their outgoing mail server.
**If you are using our outgoing mail server, please check the box under outgoing
mail server that says: "My server requires authentication"
